

Hannah L. Stone

hstone@ucsb.edu

Education

University of California Santa Barbara

PhD student in Psychological and Brain Science
Bionic Vision Lab

September 2024 - *expected 2029*

University of Rochester

Bachelor of Science with High Distinction in Neuroscience
Chemistry Minor

August 2016 - May 2020

Experience

Research Coordinator

Stanford University

February 2022 - September 2024

- Managed an ROI longitudinal child neuroimaging study on dyslexia and implemented an adult neuroimaging control study
- Collected multimodal MRI data (functional, diffusion, and anatomical), and analyzed data with fMRIPrep, QSIprep, QSIrecon, FreeSurfer, and MRIqc
- Developed Python code for ROI-based fMRI analysis and 3D printing brain models; performed data quality control for large-scale neuroimaging datasets
- Conducted reading and cognitive assessments in classroom and laboratory settings
- Led recruitment, training, and mentoring of research staff; coordinated community outreach and designed lab marketing materials

Educator and Tour Guide

San Diego Zoo and Wildlife Alliance

April 2021 - February 2022

- Led overnight wildlife tours of up to 50 guests
- Facilitated guest-animal interactions inside exhibits to educate guests and promote conservation

Research Assistant

- Responsible for recruiting participants and conducting visual psychophysics experiments
- Assisted in data cleaning and analysis through MATLAB
- Certified in laboratory animal care and performed upkeep of nonhuman primate subjects

September 2019 - March 2020

Teaching Assistant

University of Rochester

- Led weekly problem-set workshops for the undergraduate organic chemistry course
- Conducted and presented research on the impact of social interactions on student performance in the course

August 2018 - December 2018

Skills

MRI acquisition: Level 3 certified to independently operate 3T MRI scanner

Behavioral Assessments: Proficient in administering the Woodcock Johnson (WJ), Test of Word Reading Efficiency (TOWRE), Wechsler Abbreviated Scale of Intelligence (WASI), and the Comprehensive Test of Phonological Processing (CTOPP)

Research Certification: Animal Care and Use (2020), BioMed/GCP Research (2022), Red Cross CPR (2025), Modeling and Resin Printing: Stanford PRL (2023)

Python: Completed Intro to Python through Stanford's Center for Interdisciplinary Research and completed Python neuroimaging course (PSYCH 236)

Publications

Meisler, S. L., Cieslak, M., Hendrickson, T. J., Pandhi, T., ... **Stone, H.**, ... Rokem, A., Fair, D. A., & Satterthwaite, T. D. (2026). Highly replicable multisite patterns of adolescent white matter maturation. *In Review*

Mitchell, J. L., Jimenez, M., **Stone, H. L.**, Yablonski, M., & Yeatman, J. D. (2026). Visual Word Form Area demonstrates individual and task-agnostic consistency but inter-individual variability. *Developmental Cognitive Neuroscience*, 101703.

Stone, H. L., Mitchell, J. L., Fuentes-Jimenez, M., Tran, J. E., Yeatman, J. D., & Yablonski, M. (2025). Anatomically distinct regions in the inferior frontal cortex are modulated by task and reading skill. *Journal of Neuroscience*. 45(19).

Mitchell, J. L., Yablonski, M., **Stone, H. L.**, Fuentes-Jimenez, M., Takada, M., Tang, K., Tran, J. E., Chou, C., & Yeatman, J. D. (2025). The balance between stability and plasticity of the visual word form area in dyslexia. *Nature Communications*. 17(368).

Posters and Conference Papers * indicates equal contribution

Yablonski, M., Mitchell, J. L., Jimenez, M., **Stone, H. L.**, & Yeatman, J. D. (2026, September). Multimodal perspective on plasticity in the reading circuitry following reading intervention. *Neurobiology of Language (SNL) Conference*, Geneva, Switzerland.

(2023, September) Anatomical distinction and intervention-driven changes of frontal language regions in struggling readers. *FLUX: Society for Developmental Cognitive Neuroscience Conference 2023*, Santa Rosa, CA.

Stone, H. L., Yablonski, M., Mitchell, J. L., Fuentes-Jimenez, M., Tran, J. E., Yeatman, J. D. (2023, September) Plasticity of Frontal Language Regions in Struggling Readers Following Intervention. *Stanford Bio-X 2023*, Stanford, CA.

Mitchell, J. L., **Stone, H. L.**, Yablonski, M., Tran, J. E., Fuentes-Jimenez, M., Yeatman, J. D. (2023, September). Intervention-driven changes in the Visual Word Form Area of struggling readers. *FLUX: Society for Developmental Cognitive Neuroscience Conference 2023*, Santa Rosa, CA.

Yablonski, M., Mitchell, J. L., **Stone, H. L.**, Fuentes-Jimenez, M., Tran, J. E., Yeatman, J. D. (2023 September) Functional connectivity patterns of the Visual Word Form Area are stable during learning. *FLUX: Society for Developmental Cognitive Neuroscience Conference 2023*, Santa Rosa, CA.

Stone, H. L., Chadha, A., Schaffer, M., (2018, December). Social interactions linked to student performance. *University of Rochester: Center for Excellence in Teaching and Learning*, Rochester, NY.

Awards

Richard Mayer Award: Outstanding Research Contribution in Psychology	2026
Dean’s List	2016-2020
Dean’s Scholarship	2016-2020
Richard Verneti Visual Arts Award	2016
English Literature Award	2016
Seal of Bilteracy	2016

Membership to Societies

Access Grads
Ninety-Nines: International Organization of Women Pilots
Sigma Xi
FLUX: The Society for Developmental Cognitive Neuroscience
VSS: Vision Sciences Society
